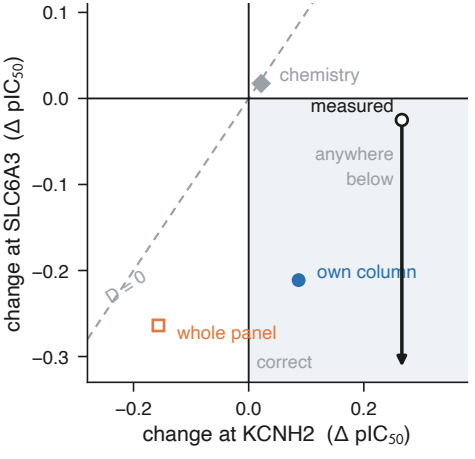
a One decision, KCNH2 withheld from calibration

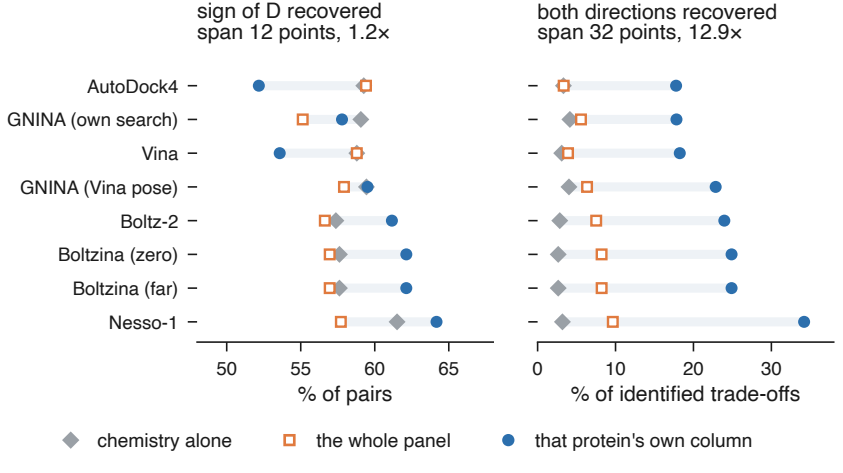
Morgan Tanimoto 0.71, one chemical group

measured IC_{50} (μM)

	KCNH2	SLC6A3
amoxapine	19.5601	9.44
loxapine	10.6001	**> 10**

bold: censored, the exact value is unknown



All three inputs put the pair on the correct side of D = 0. Only the queried column puts both changes on the correct side of zero, which is what the endpoint asks.


b The two criteria across all eight scores, proteins withheld
